

Career Education

The Business Education Department offers courses and programs designed to meet a variety of students' interests and needs. Further, the Business Program provides a variety of quality educational experiences that paves the way towards success. Students will develop skills and behaviors that will build character and leadership. Coursework will also lay a solid foundation for college education and more rewarding and higher paying employment.

Our goal is to match students' needs and interests with the courses that will be most beneficial. Contact any of the Business Department teachers if you have any questions concerning our course offerings.

We look forward to working with you.

Senior Internship

Senior Internship will prepare students for further college study and future employment.

Mission Statement: The Senior Internship Program gives students an opportunity to gain hands-on experience in a career of their choice. It provides senior with the opportunity to pursue a one-credit, independent, non-paid internship experience.

This program enables students to link their interests and preferences to research and career exploration. Any senior with an interest to learn about potential career/college choices may participate in the course.

By taking part in the Senior Internship Program, students will receive the following benefits:

- ❖ The opportunity to gain an in-depth view of the career of their choice.
- ❖ One school credit
- ❖ Universities view internships favorably. This gives students a major advantage in the college application process.
- ❖ Interns may establish connections that can lead to future employment.

Career Programs

Business Department students will have the opportunity to participate in the following career programs:

- Job Shadow Days:
 - ⇒ Teens on the Job
 - ⇒ Mercy Medical Center
 - ⇒ Hofstra University
 - ⇒ CitiBank
 - ⇒ Northrop Grumman
- Work Experience Program
